

## CLASS SCHEDULE, READING & HOMEWORK ASSIGNMENTS

This is the place where the *tentative* schedule containing the dates when topics are covered in class, reading assignments, homework assignments, and tests will be posted. I will update this regularly, but the due dates for the online homework are also posted on Mastering Physics (MP).

All homework assignments will be done online using Mastering Physics (MP). The MP pre-lecture homeworks are generally to be finished before class by 5:00 PM and no credit is given for late submissions. The MP chapter homeworks are generally due at 11:59 pm of the day they are due. **In Mastering Physics, always answer numerical questions with 3 significant figures unless the problem specifically requests that you do otherwise. CAUTION: Do not wait until the last minute to work and submit your Mastering Physics homework. You can submit your regular homework answers up to 10 days late, but you will be penalized 10% for each day they are late. Your Pre-lecture homework is due at 5:00 before class and will not be accepted later than this. NOTE: If you have a reason for missing an assignment, I will give you an extension on the due date.**
